

Life Sciences special offer

Up to 50% discount on alternatives for Santa Cruz polyclonal antibodies from Cloud-Clone!

Dear customer,

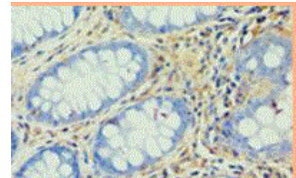

Cloud-Clone Corp. is a research and development company in molecular biology and immunology with production of assay reagents, manufacture of analysis equipment and service for animal experiment.

Its product quality management system is ISO 9001:2008 and ISO 13485:2003 certified.

Based on proprietary technology and huge resources of primers, cDNAs, plasmids, hybridoma cells as well as detection reagents, **Cloud-Clone Corp. can provide 11,000 proteins, 19,000 antibodies and 7,000 immunoassay kits** with a short lead time.

Many Santa Cruz antibodies have been discontinued. We are able to supply you with alternative antibodies. Benefit from our very attractive promotion:

**Benefit now and buy all polyclonal antibodies
from the product list at only CHF 199.-*/100 ug!**

* Price is net, ex-works, excl.VAT, without any cumulative discount and valid from 1st March to 31st May 2017
All antibodies are in stock and available within 8-10 working days.

Please mention promotion code «CloudSanta17» on your purchase order to benefit from this special price.

You can find the selected **antibodies list on our website «Documentation/CloudClone»**.
